Anodes	4 x 2.5kg aluminium
Ventilation	5 x mushroom vents – 1 x extractor fan to mushroom vent in kitchen 4 x louvre vents (150mm x 150mm) in forward bulkhead and aft doors

AFTERCARE

Buying a luxury house boat is an exciting experience, but we recognise that most of our customers have probably never owned or lived on a boat, so we want to make sure you're really happy right from the start.

We'll spend as much time as you need on handover day showing you how everything works, from the electrics and heating, right down to how to use the shower. We'll even take you out for your maiden voyage, to run you through the handling of the boat, as well as all the essentials like how to moor up.

From there, if you ever have any questions at all, our friendly team is never more than an email or phone call away. We even have a dedicated engineering team on call for any maintenance or repairs – after all, even the best-built boats will need a service or new part every now and again.

We reserve the right to change items within this specification for equivalent products in the event of manufacture or supply issues.

THE WALKTHROUGH

THE STERN

Step aboard and you'll find yourself on the thoughtfully designed stern, an outside space that's perfect for relaxing and socialising, whether you're moored up or cruising. It features wraparound seating, with weather-resistant, removable cushions and four deck lights.

It's an attractive, practical space, with integrated storage compartments and a lockable cabinet alongside the steering position. The deck itself is fitted with either a non-slip painted finish or Tek-Dek – a UV-stabilised, stain-resistant synthetic teak flooring with superb non-slip qualities that's usually fitted on luxury yachts. Finally, the whole stern area has options for a removable table and a retractable tonneau cover, providing shelter from the sun or rain.

THE LIVING AREA

You'll enter the boat's beautiful living area via three centrally positioned steps which also double as discreet integrated storage space. The elegant, open living area has been carefully designed with comfort and functionality in mind. It features attractive display shelving and cupboards crafted in rich hardwood and faux leather, and thanks to a generous double-glazed skylight, the whole space is filled with soft, natural light.

Contemporary wall-mounted radiators (or an option for low-level skirting radiators) run the entire length of the boat, while an attractive diesel stove or electric letterbox fire option, creates immediate warmth and a welcoming, cosy feel. We've added a 42" flat-screen backlit TV, mounted in a discreet recessed panel, and there's plenty of room to add your own handpicked freestanding furniture, creating a space that's all your own.

THE KITCHEN

Alongside the living area, in the same open-plan space, you'll find your modern kitchen that's been beautifully designed to maximise space and offer a luxurious, high-spec finish. We have a choice of lighting and finishes such as, style of handles, doors and quartz work surfaces to enable you to personalize this area.

Against the back wall, soft grey oak cabinets sit above a full quartz splash back and work surfaces. Below, elegant graphite-style cabinets feature copper handles and kick boards, contrast with contemporary greyed oak laminate flooring.

There's a built-in oven and four-burner hob, or a range cooker option complete with extractor fan, and the underslung sink and draining board are neatly set into the smooth surface. We've added all the modern appliances you'd expect – including an integrated washing machine, fridge and freezer – and some you might not, like a sleek, slimline wine cooler.

The sparkling quartz work surfaces offer plenty of prep area and the hardwood breakfast bar, with stylish pendant lights above, can comfortably seat four people. From preparing simple snacks to exquisite fine dining, we've designed the perfect space that can easily cope with both and everything in between.

THE GUEST BEDROOM

Your attractive guest bedroom features a queen-size bed with ample storage beneath. A luxurious upholstered wall, in a choice of colours complete with open shelving, set-in sockets and concealed downlights for a soft, soothing glow completes the look.

Opposite the bed, you'll find double and single mirrored wardrobes, together with a floor-to-ceiling shelving stack, with individual downlights on each shelf. We've also included a dresser or home-office area, as well as a large oak-framed mirror.

In the Greenwich 65ft, the bed is positioned in the centre of the room with a handy bedside table located to each side of the bed and two wall-mounted reading lights. Plus full height broom cupboard off the corridor.

THE BATHROOM

Like the kitchen, the spacious bathroom is finished to the same high-spec as you'd expect in a premium apartment. It easily accommodates not only a full-sized bath, but a separate corner shower and wash basin, finished with stylish black taps. We've included lighting above the basin set either side of a large feature mirror.

There's also a series of elegant black cabinets and shelving units, giving you plenty of attractive storage space. We've added a sleek heated towel rail and, for a touch of boutique hotel luxury, we've set underfloor heating beneath beautiful greyed oak flooring. Options on cabinetry and flooring finish available, as well as shaver socket and window dressings.

THE MASTER BEDROOM

The luxurious master bedroom sits at the front of the boat in the spacious bow area and boasts a wonderful 82cm-wide window, with a wall-mounted reading light on either side.

At the heart of the room, the generous king-size bed features a luxurious upholstered headboard, as well as plenty of storage beneath. Opposite the bed, there's a back-to-back double wardrobe with backlit TV mounted on the front face. On the port side we've provided a dresser unit and vanity area with shelving above and there's also an oak frame full height mirror to give the room a light, airy feel.
